Week 9 — Reasoning: Patterns, Analogy, Classification & Coding-Decoding — Answer Key

Q1. D) Chair — Dog, Cat, and Cow are animals; a Chair is furniture.

Q2. B) Vegetable — Apple belongs to the group "Fruit"; Carrot belongs to the group "Vegetable."

Q3. C) 7 — 2, 4, and 8 are even numbers; 7 is odd.

Q4. A) Sing — You read a book; in the same way, you sing a song.

Q5. A) ECV — Each letter moves forward 2 steps: C → E, A → C, T → V, giving ECV.

Q6. A) BQQMF — Each letter moves forward 1 step: A → B, P → Q, P → Q, L → M, E → F, giving BQQMF.

Q7. B) I — The pattern skips one letter each time: A, C, E, G, I.

Q8. A) R — The pattern skips one letter backward each time: Z, X, V, T, R.

Q9. C) Cube — Circle, Oval, and Square are flat (2-D) shapes; a Cube is a solid (3-D) shape.

Q10. D) Mango — Rose, Lily, and Lotus are flowers; Mango is a fruit.

Q11. C) 20 — 9, 16, and 25 are perfect squares (3^2, 4^2, 5^2); 20 is not.

Q12. A) 16-5-14 — P is the 16th letter, E is the 5th, N is the 14th.

Q13. B) 10 — The pattern adds 2 each time: 2, 4, 6, 8, 10, 12.

Q14. A) DIBJS — Each letter moves forward 1 step: C → D, H → I, A → B, I → J, R → S, giving DIBJS.

Q15. D) 23 — 1+2=3, 2+1=3, 3+0=3, but 2+3=5, so 23 is the odd one out.

Scoring: 15/15 — excellent, move to Week 10. 13–14/15 — solid, review the missed ones. Below 13/15 — for coding-decoding, always find the shift rule from the example pair given *before* applying it to the new word; don't guess.
