Week 8 — Data Handling — Answer Key

Q1. B) 4 — Four strokes represent the number 4.

Q2. B) 5 — A bundled group (four strokes plus one diagonal across them) always stands for 5.

Q3. B) 17 — 3 full groups × 5 = 15, plus 2 extra strokes = 17.

Q4. B) 40 — Tuesday shows 4 symbols × 10 = 40 baskets.

Q5. C) 30 — Thursday = 5 × 10 = 50; Wednesday = 2 × 10 = 20; difference = 50 − 20 = 30.

Q6. C) 140 — Monday (30) + Tuesday (40) + Wednesday (20) + Thursday (50) = 140.

Q7. D) Tina — Tina scored 50, the highest in the table.

Q8. C) Simmi — Simmi scored 30, the lowest in the table.

Q9. C) 200 — 40 + 35 + 45 + 30 + 50 = 200.

Q10. B) 20 — Highest (50) − lowest (30) = 20.

Q11. B) 15 — 40 − 25 = 15.

Q12. C) White — White has 20 cars, more than any other colour.

Q13. C) 60 — 12 + 18 + 20 + 10 = 60.

Q14. B) 30 — 6 × 5 = 30 books.

Q15. C) 9 — 180 ÷ 20 = 9 symbols.

Scoring: 15/15 — excellent, move to Week 9. 13–14/15 — solid, review the missed ones. Below 13/15 — practice reading one more real pictograph/bar-graph table carefully before Week 9; most errors here come from misreading which row or symbol-count a question refers to, not from the arithmetic itself.
