Inserting Missing Numbers — Answer Key

1. **D) 9** — Each row follows col1 + col2 = col3 (3+4=7, 5+2=7). For row 3: 6 + 3 = 9.
2. **A) 4** — Each row follows col1 + col2 = col3 (2+5=7, 4+3=7). For row 3: 6 + ? = 10, so ? = 10 − 6 = 4.
3. **D) 6** — Each row follows col1 + col2 = col3 (2+5=7, 3+6=9). For row 3: ? + 4 = 10, so ? = 10 − 4 = 6.
4. **B) 15** — Each row follows col1 × col2 = col3 (2×3=6, 4×2=8). For row 3: 5 × 3 = 15.
5. **C) 4** — Each row follows col1 × col2 = col3 (2×4=8, 3×5=15). For row 3: 6 × ? = 24, so ? = 24 ÷ 6 = 4.
6. **A) 7** — Each row follows col1 − col2 = col3 (9−4=5, 8−3=5). For row 3: 12 − 5 = 7.
7. **A) 15** — Each row follows col1 − col2 = col3 (9−4=5, 11−3=8). For row 3: ? − 6 = 9, so ? = 9 + 6 = 15.
8. **A) 9** — Every row adds up to 18 (4+5+9=18, 7+2+9=18). For row 3: 6 + 3 + ? = 18, so ? = 18 − 9 = 9.
9. **B) 5** — Every row adds up to 20 (8+5+7=20, 9+4+7=20). For row 3: 6 + ? + 9 = 20, so ? = 20 − 15 = 5.
10. **D) 7** — Every row adds up to 16 (5+3+8=16, 6+2+8=16). For row 3: ? + 5 + 4 = 16, so ? = 16 − 9 = 7.
11. **B) 6** — Top-left + bottom-right = top-right + bottom-left: 5 + ? = 8 + 3 = 11, so ? = 11 − 5 = 6.
12. **C) 35** — Each row follows col1 + col2 = col3 (12+15=27, 18+9=27). For row 3: 22 + 13 = 35.
13. **A) 24** — Each row follows col1 × col2 = col3 (3×4=12, 5×3=15). For row 3: 6 × 4 = 24.
14. **A) 7** — Every row adds up to 30 (12+10+8=30, 15+9+6=30). For row 3: 14 + ? + 9 = 30, so ? = 30 − 23 = 7.
15. **D) 13** — Each row follows col1 − col2 = col3 (15−6=9, 18−7=11). For row 3: 22 − 9 = 13.

How to use this: cover the options and find the rule yourself from the complete rows (or the complete pyramid cells) before working out the missing number — then check it against A–D.
