Sample Papers

Full-length papers built to the **exact SOF IMO Level-1 pattern** (see `../docs/02-exam-pattern.md`):

- 35 questions, 40 marks, 60 minutes
- Section 1: Logical Reasoning — 10 Q × 1 mark
- Section 2: Mathematical Reasoning — 10 Q × 1 mark
- Section 3: Everyday Mathematics — 10 Q × 1 mark
- Section 4: Achievers (HOTS) — 5 Q × 2 marks
- No negative marking, 4-option MCQ throughout

Each paper ships as two files: `sample-paper-NN.md` (questions only — print or cover the answer key and do it under a clock) and `sample-paper-NN-answer-key.md` (answers + one-line explanations).

How to run one

1. Set a timer for **60 minutes**. No calculator, no notes.
2. Attempt all 35 questions. Skip and circle anything you're unsure of rather than stalling on it — come back if time remains.
3. Mark against the answer key. Score out of 40.
4. For every wrong answer, write one line in your own error log: *which topic, and what the actual mistake was* (silly slip vs. concept gap) — this is what makes repeated papers improve the score, not just repetition.

Status

Paper	Status	Level	Scheduled (per `docs/03-practice-plan.md`)
Sample Paper 1	✅ Built	Level-1	Week 11, untimed review pass
Sample Paper 2	✅ Built	Level-1	Week 12, Day 1
Sample Paper 3	✅ Built	Level-1	Week 12, Day 3
Sample Paper 4	✅ Built	Level-1	Week 12, Day 5
Sample Paper 5	✅ Built	Level-1	Week 12, Day 7 — dress rehearsal
Sample Paper 6	✅ Built	Level-2	After qualifying Level 1

Paper	Status	Level	Scheduled (per `docs/03-practice-plan.md`)
Sample Paper 7	✅ Built	Level-2	After qualifying Level 1
Sample Paper 8	✅ Built	Level-2	After qualifying Level 1
Sample Paper 9	✅ Built	Level-2	After qualifying Level 1

All 9 papers follow the same 35-question/4-section shape. Papers 2–5 are comparable Level-1 difficulty (each drawing on different topic mixes so they don't repeat). Papers 6–9 are a **Level-2 track**: deliberately harder throughout — bigger numbers, multi-step word problems even in Sections 2–3, and tougher Achievers questions — for students who've qualified Level 1 and are prepping for the actual Level-2 exam. Run them after Sample Paper 5, one every 1–2 days, same timing and marking.
